Python 3 (ipykernel)

In [14]:

```
1  # python function sum all the number of a list
2
3
4  def sum(numbers):
5      count = 0
6      for x in numbers:
7          count += x
8      return count
9
10 print(sum((8,2,3,0,7)))
```
